

CABLE CONNECTOR

Made in TURKEY

GENERAL DISCRPTION,

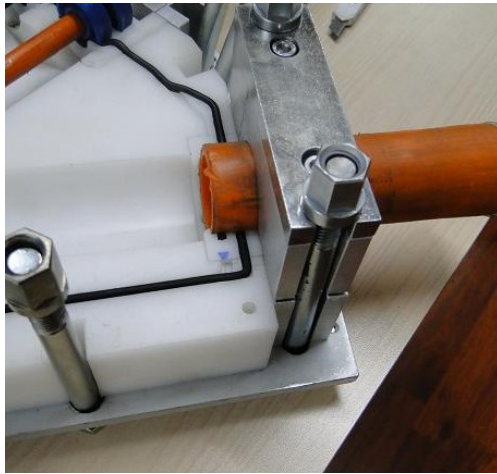

Cable connector is using to increase the cables in duct.For example If there are 1 cables in duct you can increase it to 2 or you can increase 2 cables to 3 cables.

If you do not use this tool you can not increase cables because you can not prevent air leaks without this tool.

You can use this tool for different ducts and cables by using parts which we give with tool.

We need to learn your ducts and cables diameters to product this device.

MONTAGE DUCTS , NUTRINGS ,NUTRING SEALS and O-RINGS IN THE PICTURES BELOW TO PREVENT AIR LEAK .
